**RUTHER
FORD'S
DEN**

**ANNUAL
PASS**

SOMETHING FOR ALL AGES!

The Den is a blend of old and new – the building's beautiful features are untouched, and the modern exhibition is carefully placed within the stunning heritage environment.

With an **annual pass** you can visit the Den as often as you like for one year at a cost that is less than the price of two visits.

There is a lot to see, so plan to come back again using an annual pass. Bring a friend or visitor from out of town.

If you have already bought an entry ticket today for the Den, the value of this will be credited to your annual pass cost.

THE STORY OF THE NUCLEAR ATOM.

Television, radio, sonar and telephones – just some of the great inventions we enjoy today thanks to the scientific discoveries of Ernest, Lord Rutherford and his peers.

The historic Den and Lecture Theatre have been meticulously restored, while new, state of the art exhibits link the science of Rutherford and his peers to modern life.

Hands-on experiments, walk-in multi-sensory experiences and interactive screens are just some of the fun ways you'll learn about this regular Kiwi bloke who became New Zealand's greatest scientist.

Follow him as he discovers what the inside of an atom looks like, finds out about radioactivity, discovers alpha and beta rays, and is the first to transform one element into another.

THE ARTS CENTRE
2 WORCESTER BOULEVARD
CHRISTCHURCH
